DETAILED ACTION

Election/Restrictions

Applicant's election without traverse of claims 50-80 in Communication filed October 10, 2003 is acknowledged.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the claims, this application is in condition for allowance except for the presence of claim 50-80 to invention non-elected without traverse.

Claims 81-96 have been cancelled.

Allowable Subject Matter

Claims 50-80 are allowed over the prior art of record.

The following is an examiner's statement of reasons for allowance:

Regarding claim 50, the references of the Prior Art of record fails to teach or suggest the combination of the limitations as set forth in claim 50, and specifically comprising the limitation of after step a), applying at least a first particulate constituent and a second constituent to the unmasked areas of said electrode structure, such that particles of the first constituent are selectively directed towards desired locations within the unmasked areas, thereby avoiding other locations of said unmasked areas, c) removing the masking layer from the selected areas, together with any stray quantities of the constituents on the masking layer.

Art Unit: 2879

Regarding claims 51-80, claims 51-80 are allowable for the reasons given in claim 50 because of their dependency status from claim 50.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Other Prior Art Cited

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
